QR Leadr Terms and Conditions

In case of sell out of a particular lead retrieval unit Designer Pages, LLC. reserves the right to substitute at the same or lower price. Advance deadlines are stated on the order form. Orders must be completed and payment must be received on or before the deadline date to partake in any special pricing/promotions. If orders are received after the deadline and indicate pre-deadline pricing, Designer Pages, LLC (DP) reserves the right to charge the post-deadline price.

The contact person has been informed by DP that the systems can be used to collect information provided by attendees on their registration forms, from the registration database such as; Attendee Name, Title, Company, Address, Phone, Fax, E-Mail (if provided to Show Management), etc. Information included is subject to the information designated by each event's management to be captured and may vary from event to event. Contact/User person understands and accepts that some badges issued by show management, at on-site registration, may not have bar codes and unique id numbers to allow for expedience during on-site registration. This is at the discretion of show management and is no fault of DP. No reimbursement will be given if such matter occurs. All lead retrieval units must be picked up at the show site from the "Lead Retrieval" booth. Units not picked up within 4 hours after the start of the show may be re-rented without any refund. At the end of the rental period, the contact person will return the Android cell phone(s) to DP personnel. Units that are not returned within 1 hour of the close of the show will be subject to a late charge beginning the night the show closes and \$150.00 every day thereafter until the Lead Retrieval unit is returned to DP. Late charges are not to exceed the amount of \$750.00. Equipment inadvertently taken from show site may be returned to DP prepaid, at the address on this agreement.

Designer Pages, LLC is dependent upon show management to provide complete and full information of all attendees at the show who were assigned a coded badge. If that information is not complete and correct it is no fault of DP. Any questions, concerns, or refunds will not be addressed or provided by DP but instead must be addressed to show management.

DP will provide at no extra cost initial and any additional instruction as requested by the contact person or authorized employee of the named company. Improper use or care of the unit can result in the equipment's failure to scan the codes and record the desired information. Renter risks losing any/all leads if they allow the Android phone to run out of battery power and DP is not responsible for subsequent refunds should such a situation occur. The contact person further acknowledges and agrees that, by this agreement, the liability to DP for either the App or Android phone's failure to record and retain coded information, for whatever reason, is limited to the return of the rental costs. The contact person and their company hereby waive all other rights and remedies that they may have against DP if the unit(s) do not scan and record all coded information which they attempt to obtain by scanning.

When using the QR Leadr App, the price is for one (1) show only. Smartphone not included. Data-plan or Wi-Fi required. The application will work with iPhone devices running iOS vs 4.0+ and Android devices with HOPI and MD PI resolutions running Android OS 2.2+. Application use for an extended period of time will deplete the battery life of your device. DP is not responsible for any data or leads lost due to a dead battery. DP does not provide any battery charging service or battery charging cords for equipment brought to the show by Exhibitor. All such equipment must be brought to the show site by Exhibitor.

Force Majeure. DP shall not be held responsible for refunds in the event of acts of God, war, government regulations, disaster, terrorism, strikes or threat of strikes, lockouts, civil disorder, curtailment of transportation facilities or services, fires, floods , epidemics, accidents, shortages, acts of any governmental authority or other catastrophic events hinder the ability to program, or provide lead retrieval equipment or services to show site or exhibitors.
